Consumption Rate per Cubic Meter	\$ 1.47	\$ 1.47

1 m³ (cubic meter) = 219.969 imperial gallons

*Base charge is determined by the size of the water meter (5/8" is the standard size for a single-household meter). These base rate charges for water are based on a 90-day cycle and could fluctuate depending on the number of days in the current billing cycle. For example, if the cycle is under 90 days, the base rates will be lower; if over 90 days, the system will pro-rate the charge.

Note: If you see a consumption of zero on your billing, please contact the Acting Water Utility Clerk, Shantel Barnett at sbarnett@westhants.ca or 902-798-8391 ext. 107 for further investigation.
