---

Thank goodness it's Friday, hope you all have a wonderful weekend. It can not be easy doing your jobs.

If you have time this weekend I hope you will view the YouTube video, Down Wind - wind farm documentary, posted by Surge Media Canada, 9 years ago.

Whether liberal (9 years ago Ontario) or conservative (now Nova Scotia) governments, the same thing is happening.

Ontario was farmland, even the worms moved out. Hants County is uranium laced rock, home to a variety of species, wetlands, farms and people.

Once those windmills go up there is no going back.

I hope that you have the courage to save our community and say no more windmills.

Thanks for listening, enjoy your weekend.  
Karen Wallace
